Approval of the Dean

1. Program Vision

That the college be one of the scientifically and internationally sound academic institutions that embodies human and Islamic values.

2. Program Mission

The college seeks to occupy a distinguished position among law colleges at the local, Arab, and regional levels by providing a distinguished environment for teaching, learning, scientific research, and community service.

3. Program Objectives

- 1- Providing the appropriate scientific environment to unleash creativity in various legal sciences, by adopting distinguished academic programs.
- 2- Providing the legal institutions in the state agencies with jurists and specialists in the branches of law who possess cognitive, professional and moral values.
- 3- Working to encourage scientific research, provide facilities, and create the appropriate atmosphere to encourage researchers to complete research.
- 4- Building cultural and scientific relations with law faculties in Arab and international universities with a high academic level to benefit from expertise and scientific research.
- 5- Clear and effective contribution to improving university legal education through acquiring high knowledge and applied skills to practice legal professions.
- 6- Effective contribution to developing and disseminating legal culture, and directing it to serve the needs of society.
- 7- Ensuring adherence to the ethics and values of practicing the legal profession.

4. Program Accreditation

5. Other external influences

The Holy Abbasid Shrine

8. Expected learning outcomes of the program

Knowledge

- 1- The academic program seeks to spread the legal culture throughout society to ensure the application of laws and regulations.
- 2- Preparing legal graduates to support the public service in the administrative apparatus.
- 3- Preparing lawyers to achieve justice within society.
- 4- Developing public service ethics within legal studies.
- 5- Reviewing the constitutions of Arab and foreign countries and conducting a comparative study between them to identify their strengths and shortcomings.
- 6- Introducing them to the legal systems applied in many countries of the world.

Skills

- 1- Technical skills to ensure the implementation of laws, regulations and instructions.
- 2- Technical skills in choosing typical methods in defending the accused.
- 3- Conducting graduation projects for fourth-year students.

Ethics

- 1- That students be an example of a sincere lawyer in his work.
- 2- That students make every effort to understand the principles of law.
- 3- For students to develop their relationships with their colleagues for the better.
- 4- For students to exchange and cross-fertilize ideas by holding workshops on legal topics.

9. Teaching and Learning Strategies

- 1- The method of delivering lectures by the subject professor.
- 2- How to use electronic presentation to deliver lectures using Power Point.
- 3- How students prepare the lecture and deliver it in the hall.

10. Evaluation methods

- 1- Theoretical tests
- 2- Graduation projects
- 3- Application in courts and government departments

11. Faculty

Faculty Members

Academic Rank	Specialization		Special Requirements/Skills (if applicable)	Number of the teaching staff	
	General	Special		Staff	Lecturer
Ph.D	2	4		4	2
Master's	1	8		3	6

Professional Development

Mentoring new faculty members

By holding workshops, seminars, and lectures to guide new faculty members and courses in order to realize their potential as professors and researchers, it enables them to participate and communicate in a positive environment that helps them integrate into the university community, and introduces them to Al-Kafeel University, including its characteristics, basic values, and responsibilities related to rights and performance.

Professional development of faculty members

- 1- Holding development courses for faculty members.
- 2- Establishing a Center for Continuing Education, which holds seminars, lectures and workshops for faculty members
- 3- Working to spread the culture of quality and development among the faculty members.
- 4- Providing support to faculty members to participate in scientific conferences.

- 5- Providing scientific and financial support to faculty members to encourage them to publish and scientific research.
- 6- Working to create an environment suitable for the educational process in general and conducting scientific research in particular for faculty members.

12. Acceptance Criterion

Centralized acceptance via streamlining

13. The most important sources of information about the program

- 1- The college's website
- 2- By issuing introductory brochures about the program.

14. Program Development Plan

- 1 - Forming teams for students to work collectively within formed teams that work effectively and actively.
- 2- Time management and setting priorities with the ability to work organized.
- 3- The ability to direct and motivate others.
- 4 - Holding specialized legal conferences and inviting qualified people to participate in them.
- 5 - Organizing ethical and intellectual seminars that address students' issues and problems.
